MISSION OF AREA TECHNOLOGY CENTERS

“To develop a skilled and versatile individual by providing technical education and training.”

GOALS OF AREA TECHNOLOGY CENTERS

- **Provide technical skills training to secondary students that lead to successful post high school transition**
- **Enhance career exploration options for secondary students**
- **Collaborate with local school districts to enhance the educational growth of all students**
- **Respond to the training needs of business and industry for the community**
- **Become an Area Center of Excellence to continually improve quality technical education for life-long learning**

ACADEMIC PROBATION

When students fail to maintain a "C" in any course taken at the Area Technology Center, it will be left to the discretion of the area technology center Principal whether or not to reenroll students.

Students will be reenrolled after parents, students, and high school administration has agreed to a plan of action.

ADMISSION PROCEDURES

Priority is given to students who are 15 years of age or older during the school year in which they enroll in a technical program. Access to programs is not denied to younger students who desire to use the facilities of technical schools for career education experiences designed to produce occupational awareness, orientation, exploration, and limited work exposure. High school students desiring to attend the technical school should contact the high school counselor or other designated school officials to plan enrollment procedures.

Postsecondary students may be enrolled if space is available in selected programs. Adults interested in enrolling as a postsecondary student should contact the principal and/or guidance counselor and discuss enrollment procedures, financial aid, tuition and fees, and training objectives.

APPROPRIATE DRESS

All students are expected to keep clothing neat and clean as well as practice sanitary habits. Students must dress in accordance with specific safety regulations established by the teacher(s) in a given program. As Career and Technical classes may be hazardous, it is important that all safety precautions be taken which may include but not be limited to the following:

- ✓ Hard hats shall be worn where head protection is required
- ✓ Safety glasses shall be worn when operating any equipment and/or using chemicals that require eye protection
- ✓ Shop clothing in heavy work areas such as welding, diesel, and industrial maintenance shall be cleaned frequently
- ✓ Hair length must be of a length that poses no safety hazard or must be contained under a head covering to insure safety
- ✓ Loose and flowing clothing or dangling jewelry supported by loose chains, strings, or wires, which may become caught in machinery, should be avoided in shops equipped with moving or rotating power equipment
- ✓ Clothing that adequately protects legs and arms must be worn in the industrial shops
- ✓ Students will not be permitted to wear shorts or synthetic fabric clothing
- ✓ Students who operate equipment, which appears unsafe for use, should immediately inform the instructor.
- ✓ No student should disregard unsafe conditions nor create unsafe situations for self or others.
- ✓ Gloves and safety glasses must be worn by all health and human services students when in direct contact with body fluids.
- ✓ School and/or program specific information will be furnished by each Career and Technical program teacher.

ASBESTOS INSPECTION

All school buildings have been inspected for asbestos containing materials and comply with current regulations.

ATTENDANCE POLICY

Each student is expected to attend classes regularly and at the prescribed time. An accurate record of attendance and absences will be kept in each course and reflected on the student's transcript. Each student shall assume responsibility for regular attendance, completion of all assignments, completion of all examinations and completion of required laboratory, internship, and clinical time.

BOOKS AND SUPPLIES

Students may be required to purchase workbooks and safety supplies required in some training programs. Items may be purchased in the bookstore located in the school's main office. Instructors will notify students of the required books and supplies during the orientation process.

BOMB THREAT EVACUATION PROCEDURES

After a bomb threat has been received, the school administrator or his/her designee will verbally announce the evacuation of the building. Staff and students will evacuate the building through the same exit used during fire drills. Staff and students should move far enough away from the building to be protected against debris in the event of an explosion. Immediately upon giving the evacuation signal, the police, fire department and other appropriate agencies will be notified. The principal will be responsible for directing the search of the building and receiving information from search personnel. Once a thorough search of the building has been completed, the principal will announce that staff and students may return to the building.

BREAKS

Student breaks will be designated by the individual schools to accommodate class schedules. Students must return to the classroom or lab when the bell rings to signal the break is over. No food or drinks are allowed in the shops or classrooms at any time. Instructors may designate a specific area in the shop or classroom where students can break which is away from any equipment or instructional materials.

Bullying/Hazing

The Kentucky Center for School Safety (<http://www.kysafeschools.org/cyberbullying.html>) addresses Cyber Bullying:

Cyber bullying involves the use of information and technology such as e-mail, instant messaging, the publishing of defamatory personal web sites, and online personal polling web sites that are used to support conscious, willful, deliberate, repeated, and hostile behavior by one or more people with the intent to harm others. On-line harassment or threatening is **Cyber bullying**

In order to effectively participate in the democratic process as adults, students must learn to respect the rights of others and to interact with them in a civil manner. Therefore, students are required to speak and behave in a civil manner toward students, staff, and visitors to the schools.

Bullying means any unwanted verbal, physical, or social behavior among students that involves a real or perceived power imbalance and is repeated or has the potential to be repeated that occurs on school premises, on school transportation, or at a school sponsored event or that disrupts the educational process. This definition set forth by KRS 158.148 shall not be interpreted to prohibit civil exchange of opinions or debate or cultural practices protected under the state or federal Constitution where the opinion expressed does not otherwise materially or substantially disrupt the educational process.

Students who violate this policy shall be subject to appropriate disciplinary action.

CARL D PERKINS FUNDS

The Clinton County ATC receives funding through the Carl D. Perkins Career and Technical Education Act which is designed to improve, expand, and develop programs for students enrolled in career and technical education programs. The amount of funding a school receives is determined by the number of students who live in the school

district and the number of families with children living in the school district whose income is at poverty level in proportion to the total living in the state. The funds allocated to the ATC is based on the percent of students from a local school district who are enrolled in the ATC in proportion to the total number of students from that school district who are enrolled in technical education programs at the high school and the ATC. These funds are used to make improvements to the programs so that the training the students receive is current with knowledge and technical skills needed by business and industry.

CERTIFICATES

Students attending the ATC will have the opportunity to complete various program specific certifications.

CHECK OUT

High school students signing out to leave the area technology center will only be allowed to leave with a parent/legal guardian/or approved designee. The student must first be checked out at the parent high school before being released from the area technology center. Proper identification must be presented to office personnel. A copy of the identification will be placed in the student's folder with the time and date the student left school.

CLEANLINESS OF BUILDINGS, RESTROOMS, AND GROUNDS

Every effort is made to properly maintain the buildings and grounds. Students are asked to assist in this effort by disposing of their trash in containers provided. Students failing to observe these regulations will face disciplinary actions.

Every effort is made to provide the cleanest restrooms possible. Students should take pride in helping to keep the restrooms clean. It is considered a serious offense to deface walls or damage fixtures and will result in disciplinary action being taken. Smoking in restrooms is strictly prohibited. If a student spends an extended period of time in the restrooms without notifying the teacher or principal, he/she will be disciplined as skipping class.

CONDUCT

All students are required to maintain acceptable standards of conduct, which include courtesy, respect for the rights of others, orderly behavior, and compliance with established school policy. DISCIPLINE

Students with excessive discipline referrals and/or violation of area technology center safety regulations may be removed from the program at the Area Technology Center at the discretion of the area technology center Principal. The student, parent, and high school where the student attends will be notified immediately of this decision. The students must travel as a group and will be accompanied by at least one instructor. Students must complete the field trip permission form with parent/guardian signature(s) prior to participating in a field trip.

FAMILY RIGHTS AND PRIVACY ACT OF 1974

The Family Educational Rights and Privacy Act of 1974 became effective November 20, 1974. The act denies federal funds to any school district that does not allow parents access to their children's files.

Parents must be allowed to inspect and review all materials that are incorporated into each student's cumulative record. Parents must be granted a hearing to challenge the contents of the records if requested. For additional information, contact the principal of the school.

Transfer of records to another institution in which a student intends to enroll requires the school to: (1) notify parents of transfer, and (2) inform parents that a copy of the transferred records is available to them if desired.

Release of any information contained in personal school records to any person other than those listed in subsection (b)(1) must be done only upon written consent from the student's parents, specifying what is to be released, and to whom. Persons or agencies receiving information may transmit the information to the third party only upon written consent of the parents of the student. After a student reaches age 18 or is attending an institution of postsecondary education, the rights that were the parents accrue to the student. The parent's rights cease when the student takes over.

FIRE DRILLS

The Kentucky Fire Code requires that a total of 10 fire drills be conducted during the school year. Fire drills are conducted for the purpose of training students to exit a facility in an organized and expedient manner should a fire occur. Evacuation signs are posted in all classroom and hallways. At the sound of the alarm, students should start moving immediately according to plan. Once outside the facility, the instructor will check attendance to make certain everyone is accounted for. The signal to return will be a continuous bell. Every student is required to participate.
