

# Overview of Visual Arts

Students in visual arts are exposed to different types of mediums such as acrylic, tempera, and watercolor paints as well as a verity of drawing mediums; oil pastels, pastel chalk, and carbon. Students learn about the elements of art by responding to famous artworks of Pablo Picasso, Leonardo Da Vinci and modern artists Mike Artel and Mix Lang; line, shape, space, form, texture, and movement. Students learn three dimensional drawing techniques that assist them in mathematics; cube, cylinder, cone, sphere, rectangular prism. Student use clay to construct sculptures. Students are exposed to a variety of cultures such as Native American, Appalachian culture, and American cultures and patriotism. Students display works of art on the bulletin boards and in the hallways that contain self-expression: self-portraits and color.
